

Environmental Information Center (VI Mtg. Room D)

Thursday, June 5

10:00 – 12:00 PM

Alltech

- 10:00 Yucca and Odor Control: A Modern Perspective on Quality Control, Efficacy and Cost Reduction
Paul Groenewegen, Technical Sales, Alltech, Inc. - Canada
- 10:45 The Future: Dramatically Lower Excretion Levels and Costs, Improved Reproductive Performance and Longevity with Improved Energy Utilization through Organic Mineral Use: Fact or Fantasy?
Jeremy Burkett, Iowa State University
- 11:30 Solutions to Decrease Mineral Excretion and Lower Feeding Costs - A Practical Approach
James Pierce, Coordinator of Monogastric Research, Alltech, Inc.

1:00 – 3:00 PM

BASF Plant Science L.L.C.

- 1:00 Practical Feeding Programs for the Environment
Tom Deters, Marketing Manager, FS Total Livestock Services, Effingham, Ill
- 2:00 Research Applications for Managing the Environmental Footprint of Swine Production
Dr. Joel DeRouchey, Associate Professor/Extension Specialist, Kansas State University

Friday, June 6

10:00 – 12:00 PM

Slurrystore

- 10:00 Anaerobic Digesters – Where Waste Management = Energy Generation
David Palmer, BioPower, Franklin, TN
- 10:40 Solid Separation and Phosphorous Removal
Participants will learn how farms can implement their processes to accomplish environmental objectives and meet the constantly changing requirements.

1:00 – 3:00 PM

National Pork Board

Moderator: Leon Sheets, Ionia Pigs Inc.

- 1:00 Facility Siting
Larry Jacobsen, University of Minnesota
- 1:40 How to Make EQIP Work for You
Dennis Pate, Validus
- 2:10 Odor Mitigation Technologies (*Environmental Stewards Showcase*)
2005 - Randy Brown, Maken' Bacon Farm – Nevada, OH
2006 - Henry Moore, Bobcat Farms – Clinton, NC
2007 - Loren Keppy, Keppy Farm – Durant, IA
